What you get. 1) You get 15% off the app for yourself, for as long as you're an active affiliate — a private code just for you, activated in your account. 2) You make money off each person who signs up with your code and successfully pays: 20% of their first weekly or monthly payment, or 25% of their first yearly payment. 3) The people who use your code get 15% off their first month.

How your code works. Your public code is not a password — share it. Customers enter it in the app's Stripe subscription checkout; it is not an App Store or Google Play coupon. One commission per new paying customer: not per download, not per month, and not on your own purchase. Copy your exact code from My Account → Affiliate → My affiliate dashboard. Your own 15% discount is a separate private code: activate it in your dashboard using the same email as your app subscription, and it ends when your participation ends.

MY ACCOUNT · YOUR CODE, EARNINGS & PAYOUT SETUP

From approval to payout

A straightforward process, with your bank details kept in Stripe.

1 · Apply with your free website account
Andrea reviews applications personally. Use the email address you want application updates sent to.

2 · Approval and your code
Your approval email goes to your account email. Your public code, share link and kit appear in your dashboard. Your own 15% app discount is a separate private code: activate it there using the same email as your app subscription.

3 · Connect your bank
Select “Set up payouts” in My Account. Stripe opens its secure identity and bank-verification form. You do not need to create a separate Stripe business account first. Eligible countries only; finish any details Stripe requests.

4 · Share and earn
Add your code to a graphic or caption and include #affiliate. Customers must enter that code in the app’s Stripe checkout. You make money off each person who signs up and successfully pays: 20% of their first weekly or monthly payment, or 25% of their first yearly payment — a click, free trial or download by itself earns nothing. Paid sales appear after the daily sync.

5 · Check your earnings
Your dashboard separates held, payable and paid earnings and shows commission/payout history. Commissions are held for 30 days. First-payment refunds reverse the related commission.

6 · Monthly payout review
At least $25 CAD must be payable; smaller balances roll forward. Andrea reviews and sends monthly payouts. They are not yet automatically sent; an email is sent when a payout is issued.

Your graphics, ready to share

Use genuine personal endorsements only. Replace YOUR CODE before posting.

Plan your energy

Open / download graphic

Add your code on the image

In Canva or your photo editor, open a downloaded graphic. Cover the “YOUR CODE” placeholder with a matching light label and type your exact affiliate code in violet. Keep the discount wording, app screen and headline unchanged. For Plan your energy, replace “YOURCODE” in the bottom line. Save as JPG or PNG.

For Stories and Reels

Upload the showcase as a Reel or Story. Add “Use [YOUR CODE] · 15% off for one month” as a text sticker away from the phone screen, plus #affiliate. Include your share link as a Story link sticker. Keep any added text clear of the top/bottom platform controls.

Before posting

Only use “my favourite”, “what I use” or similar wording if it is true for you. Otherwise use a neutral screenshot from the next page. Do not claim personal results you have not experienced.

The genuine screen library

Ten original app screenshots · open any link to download.

Daily energy

Chakra view

Magnetic window

Real sky guide

Today’s Moon

Rituals

Sign crossings

Eclipses

Intuition

Breathwork

Use these real screens in carousels, Stories, comparison-free app overviews or behind your own honest explanation. Keep screens uncropped and readable. Add your code and disclosure outside the screen rather than hiding app details.

Sharing standards
Be honest and disclose your affiliate relationship. No spam, false medical/diagnostic claims, invented reviews, brand-keyword bidding or pretending to be the official brand. Approval may be paused or ended. This program covers app subscriptions only, not website courses, reports, Journal or merchandise.

Posting status — hold until ready

No posts are scheduled by this kit. Older 10% and forever-discount artwork and captions are superseded: do not post them. The live affiliate coupon is now 15% for one month on the App subscription only. The website update still needs publication and each complete post needs approval before launch. Dates are optional, not scheduled.
